

VFD

PREVENTATIVE MAINTENANCE PROGRAM

SERVING OUR CUSTOMERS

SINCE 1987

Since 1987, Reltech has provided Western Canada with the best VFD service and maintenance programs available.

VFD SALES | START UPS | PARTS & SERVICE | MAINTENANCE

VARIABLE FREQUENCY DRIVE (VFD) PREVENTATIVE MAINTENANCE PROGRAM

Our Factory Trained Technicians will provide the following comprehensive service:

- Visual inspection, Clean Enclosures and Build ups
- Check cooling fans
- Review and Trouble Shoot Fault History
- Visual Inspection of Capacitors
- Review Parameter settings
- Load Test
- Confirm Building Automation Control
- Check Input AC and DC Voltages
- Re-torque electrical connections
- Optional Infra-red Photography
- Provide VFD PM Report & Deficiencies

COMPLETING AN ANNUAL CLEANING IS A CRUCIAL COMPONENT OF VFD PREVENTATIVE MAINTENANCE.

REGULAR MAINTENANCE IS CRITICAL TO THE OPTIMAL PERFORMANCE AND LIFESPAN OF VFDs.

Having your VFD's cleaned will ensure that the optimal operating range is maintained for the maximum amount of time. This results in longer VFD lifespans, a clean and healthy building, and prevents unnecessary, costly repairs or replacement.

**LET US MAKE IT EASIER FOR YOU
BY COORDINATING YOUR ANNUAL
VFD MAINTENANCE SCHEDULE**
